PREA Incident Reviews

The Winnebago County Correctional Facility has implemented a Sexual Abuse Incident Review group per PREA Standard §115.86. Under this Standard, the Corrections Bureau must conduct a sexual abuse incident review at the conclusion of every sexual abuse investigation, including where the allegation has not been substantiated, unless the allegation has been determined to be unfounded. Such review will ordinarily occur within thirty (30) days of the conclusion of the investigation. The review team will include upper-level management officials, with input from line supervisors, investigators, and medical or mental health practitioners. The Corrections Bureau will implement the recommendations for improvement, or document its reasons for not doing so.

Review Criteria:

1. Consider whether the allegation or investigation indicates a need to change policy or practice to better prevent, detect, or respond to sexual abuse;
2. Consider whether the alleged incident was motivated by race; ethnicity; gender identity; lesbian, gay, bisexual, transgender, or intersex identification, status, or perceived status; or gang affiliation; or was motivated or otherwise caused by other group dynamics at the facility;
3. Examine the area in the facility where the allegation occurred to assess whether physical barriers in the area may enable abuse;
4. Assess the adequacy of staffing levels in that area during different shifts;
5. Assess whether monitoring technology should be deployed or augmented to supplement supervision by staff; and
6. Prepare a report of its findings, including but not necessarily limited to determinations made pursuant to the above requirements and any recommendation(s) for improvement and submit such report to the facility head and the PREA Coordinator.

Analysis/Corrective Action

There were five occurrences reported as "Inmate on Inmate Nonconsensual Sexual Acts", two reported as "Inmate on Inmate Sexual Harassment", and three reported as "Staff Sexual Misconduct" all incidents were investigated and the investigations indicated alleged event did not occur and therefor they are unfounded.

There were five occurrences reported as "Inmate to Inmate Sexual Harassment", all five were investigated and the investigations indicated that the alleged event did occur and therefor they were substantiated.

There were three occurrences reported as "Inmate to Inmate Nonconsensual Sexual Acts", all three were investigated and insufficient evidence to make a determination as to whether or not event occurred so therefor they were unsubstantiated.

There was a slight increase in reporting during 2018 which could be contributed to the PREA audit that took place this year along with the increased education the inmates received.

Based upon an analysis of the incidents listed in 2018, the following Recommendations for corrective action(s) were taken.

- 1) PREA video in booking along with all facility rules to further educate inmates when they come into the facility.
- 2) Place PREA posters inside housing units for inmates.
- 3) Add additional cameras throughout the facility when funding allows.

Information specific to identifying personal information that could identify staff or detainees/inmates, the facility layout, or any disciplinary records of staff or detainees/inmates has been redacted from this report.
